## ALL SORTS.

—Lung Protectors at Thaxter's Drug Store.  
—For cold feet, get a Hot Water Bag at Thaxter's.  
—Several wood-choppers have been arrested by the United States Marshal for cutting timber on Government lands in Lander and Eureka counties.

—Episcopal services will be held as follows today: At St. Peter's Episcopal Church at 11 A. M., and at the State Prison at 2 P. M. Geo. R. Davis, Rector.

—Ex-Governor Alger will shortly visit California, in hopes of benefiting his wife's health. Alger is looming up as the Republican candidate for Vice-President.

—Attorney-General Alexander was made happy yesterday by the arrival of Mr. and Mrs. J. T. Benham, parents of Mrs. Alexander. The old folks are in splendid health.

—No other medicine is so reliable as Ayer's Cherry Pectoral, for the cure of coughs, colds, and all derangements of the respiratory organs. It relieves the asthmatic and consumptive, even in advanced stages of disease.

—The second trial of George W. Lewis, for the murder of George Piccolo, is now progressing in Elko county. The plea of the defense is insanity, and much interest is manifested in the result, as the murder was cold-blooded.

—My little son, three years of age, was terribly afflicted with scrofula. His head was entirely covered with scrofulous sores, and his body showed many marks of the disease. A few bottles of Ayer's Sarsaparilla cured him."—W. K. Becket, Hymera, Ind.

—STATE LAND OFFICE.—During the week ending February 10th, twelve applications for State land were filed, embracing 2,296.32 acres. Cash receipts: Payments on applications, \$574 10; payments on contracts, \$128 91; interest payments on contracts, \$225 92; total, \$928 93.

## A NEW ROAD.

### The C. P. Heading for Carson.

For some years the C. P. people have been considering the practicability of utilizing the old Placerville route for their road. The money expended in the last few years to keep the track clear from snow and the constant renewing of snow sheds would have built the proposed route.

The Placerville route was the first surveyed, and would have been built had the people along that route had enterprise enough to have stood in on the proposition. They thought they had a dead thing, and so lost their opportunities.

A survey has been made to Placerville already, and the surveyors had orders to keep the line well up, and the line as now surveyed is 200 feet higher than there is any necessity of having it, unless the management intends to go on to the lumber regions about Lake Tahoe. This is the present intention, and the plan is to strike the Lake near Yank's Station, go about the Lake above Glenbrook, and come down to Carson through King's Canyon, striking the old C. P. line by Wadsworth.

The road has expended so much money in keeping the line up through the Sierra range that they consider the new route as a matter of actual economy. When the road is completed it will make Carson City the leading town in the State.

## The Most Agreeable

## THE WOODHOUSE MURDER.

The Rewards Offered for the Apprehension of the Assassins.

On the 8th of January 1888, Isaac N. Woodhouse, a well known and respected mining man of Esmeralda county, left Hawthorne, Nevada, for Bishop Creek, California. He never reached his contemplated destination, and, is generally supposed, was murdered and robbed.

The following day after leaving Hawthorne he was seen to pass "Teals Marsh," where men were engaged in collecting borax. This is the last known place where he was seen and spoken to.

The scene of tragic death is supposed to be in or near the timbered country, situated fifteen or twenty miles South from "Teals Marsh."

The body having been hidden away has not yet been recovered. The effects which Mr. Woodhouse had at the time of leaving Hawthorne, were:

A dark brown horse, weight about 1000 lbs., left hind foot white, a small crescent shaped white spot on forehead, high shoulders with withers well back, hips well forward, had a short back, black mane and tail, tail inclined to be curly, long and full.

New collar, hame harness, new buck-board built to order, unusually long, 1½ inch spindles, tires ½ inch wider than the fellos, the spring-board was of oak, to save it from wear, pine-boards were bolted on with ½-2 inch square headed bolts, about 24 in number, the running gear, wheels, axles and shafts, were painted a brick dust color the board was slate color, his mess box was of pine and the same color as the wheels.

He wore mining boots, blue underwear, canvas cloth lined under and over coat, a linen hat, carried a silver watch, open face, 40z. case, movement marked "American Waltham Watch Co.," full jeweled, movement number 2,758,886, case has watchmaker's register number S-4, 442 scratched inside of case near rim in very small characters requiring a glass to decipher. Had a Smith and Weston Revolver, nickel plated self cocker, rubber handle, and 6 inch barrel. He had with him as is supposed his new Marlin Repeating Rifle, of 45 calibre. His bed consisted of a pair of cinnamon colored, considerably worn blankets, also a pair of mottled ones of fair and better quality, a calico comforter with Palmleaf pattern, also a green one with small, yellow vine, a curled hair pillow, with ticking yellow and blue stripes, the stripes, yellow and red, called hair stripes were ¾ inch wide, the blue 1½ wide. He had on his person from \$300 to \$400 coin.

Isaac N. Woodhouse was a native of Ohio, 42 years of age, he was about five feet, eight inches in height dark hair and eyes, and wore a full beard. He served through the late war in the Sixth Ohio Battery.

Since the murder the State has offered \$750 reward, the county of Esmeralda \$250 and Z. Lyford a friend of Woodhouse \$100, making \$1,100 in all. This will be paid for the apprehension of the murder.

The horse has been recovered and is now at Middlesex, and the officers have also heard of the buck-board.

## DR. HARMON.

His Success in Carson—He Will Remain Another Week.

Some days ago it was announced that Dr. S. Harmon, the oculist, would leave Carson about the 13th instant, but yesterday the Doctor informed us that business was so good here, that he would remain another week. To use his own language, the Doctor does not leave a town until he gets "skunked." By the latter phrase he means "three days without doing business." All who have not visited Dr. Harmon's rooms in the Ormsby, are invited to investigate his wonderful machine for determining the spectacle or glass most suitable to the eye, as well as view his stock of Brazilian pebbles, etc.

When Baby was sick, we gave her Castor.  
When she was a Child, she cried for Castor.  
When she became a Man, she clung to Castor.  
When she had Children, she gave them Castor.

## THE ELECTRIC LIGHT.

Carson will be Lighted This Month.

The two dynamos of the Electric Light Company have arrived, and also the engine to be used in propelling them.

The engine is forty horse power, and will be supplied with steam from the box factory boilers. The light is what is known as the Brush system, and is not incandescent. The light is made by the consuming of two carbon points at what is known as "high tension." This high tension makes the light only available for the open air, and could not be used in a house, for it would be simply blinding, as it cannot be regulated. The low tension incandescent lamp of the Edison type will also be introduced here, provided the present Brush system of out-door lighting is successful.

The yards of the Tahoe Flume Company will be lighted at night by the electric light, thus obviating the necessity of so many watchmen, and there will be a light tower in the Northern and Western parts of the city.

The hotels and saloons can use the electric lights in front of their doors, and there will be a light tower at the V. & T. machine shops.

It is also proposed to place a light in front of the Capitol, and probably one on the flag-staff of the cupola for the benefit of the city.

By lighting the State Prison by electricity it would materially lessen the chances of escape of prisoners. Should the incandescent light be introduced here in private dwellings the Company could afford to furnish it at a much cheaper rate than gas or oil, and the greater safety would also be a strong recommendation.

## Robinson Released.

In the trial of the Gray boys for larceny it was in evidence that some bottles stolen from Cap. Avery were sold to H. Robinson. Justice Witherell cited him to come into Court with the bottles, and he refused. He was ordered under arrest for contempt. H. F. Bartine took the case before the Supreme Court yesterday on a writ of habeas corpus, and Robinson was released.

## Syrup of Figs

Is Nature's true laxative. It is the most easily taken, and the most effective remedy known to Cleanse the System when Bilious or Costive; to dispel Headaches, Colds, and Fevers; to Cure Habitual Constipation, Indigestion, Piles, etc. Manufactured only by the California Fig Syrup Company, San Francisco, Cal. For sale by George C. Thaxter, agent Carson.

—The Elko Commissioners have just awarded the contract to do the county printing of that county for one year to C. W. Grover and C. H. Sproule for the sum of \$100 per month.

If such a contract were let in Ormsby county, certain people in Carson who believe in pulling down any newspaper they cannot run, would howl like a starved coyote for the next year.

—The funeral of Miss Fanny Fanning of Empire city took place yesterday, at the Brunswick Mill. Nearly the whole population of the city turned out. Deceased was a general favorite of Empire and only 17 years old.

—The half breed Holstein bull purchased by Mr. Cohn was formerly owned by Mr. Ulrick. It is 15 months old and weighs 925 lbs. It was sired by Saratoga.

—Private advices confirm the statement that work will be started on the U. S. building before the 15th of March. The news come from a reliable source.

—The Dayton dredging machine will be launched today at Dayton with a banquet. Quite a crowd will go down from here.
